

## Anti-Hazing Policy

Lakewood High School prohibits recognized groups, organizations, athletic teams or those that attend events or activities sponsored, organized or supported in any way by those organizations, from hazing members, prospective members, or other persons seeking to obtain benefits or services from any of these organizations.

Hazing is an action or activity, with or without consent from a person, whether conducted on or off Lakewood High School property, which is designated to or has the reasonably foreseeable effect of humiliation, denigrating, offending, physically or mentally abusing or exposing to danger a person, as a condition, directly or indirectly, of the person's consideration for, continuation in, admission to, membership in, participation in activities of, receipt of benefits or services from, an organization or group.

Any participant who chooses to not follow the above policy will be subjected to consequences on a case-by-case matter.

I have read and understand the Anti-Hazing statement adopted by Lakewood High School
